

Walloon Biotechnology Seminar

New Developments of the Pharmacology
in the Walloon Region of Belgium

Today, we are ever more conscious of our wellbeing and our health.
Our lifestyle is changing, as much as our vision of wellbeing.

How can we anticipate and prevent pathologies? Can we fancy a world where therapies are pinpointed and without side effects? How can we protect our children? How can we cut down the cost of drug development and make it affordable to everybody?

Science anticipates changes and gets prepared.

These questions raise complex scientific questions and bring solutions that will revolutionize our daily life. Pharmacology brings solutions to develop new therapies rapidly and efficiently. Epigenetics develops innovative and non-invasive prevention and therapy solutions. Early diagnostics allow lighter and personalized therapies. Efficiency of the drugs is higher.

The Walloon Region of Belgium provides a fertile soil for state-of-the art R&D. Leaders will be in Japan to introduce the major developments in the epigenetic and pharmacology fields.

We would be most honoured to have your company at the seminar.

Organizer: Wallonia Foreign Trade and Investment Agency
Co-organizer: Osaka Chamber of Commerce and Industry
Supporter: Embassy of Belgium in Japan
NPO Kinki Bio-industry Development Organization

Date: May 16, 2006 (Tuesday) /Seminar: 15:00-17:00/Reception: 17:00-18:00

Place: Osaka Chamber of Commerce and Industry
2-8, Honmachibashi, Chuo-ku, Osaka
6F, Hakuho-no-ma (Seminar) Sakura-no-ma (Reception)

Schedule:

| | |
|--------|--|
| 15:00 | Introduction |
| 15:05 | Dr. Jean-François LAES, DNA Vision s.a. The use of pharmacogenetics and pharmacogenomics in the development of a more efficient medicine. |
| 15 :30 | Dr. Paolo MEONI, Marketing Director, Euroscreen s.a Accelerating Discovery of Drugs Acting at GPCR Receptors |
| 15:55 | Dr. Serge PAMPFER, General Manager GIGA - Interdisciplinary Cluster for Applied Genoproteomics |
| 16:20 | Mr. Shinji KANAYAMA, Vice President, NIPPON EGT co.,Ltd. Tools and services for the biopharmaceutical industry from Eurogentec (to be confirmed) |
| 16:45 | Closing words Mr. Bruno Pozzi, First Secretary Embassy of Belgium in Japan |
| 17:00 | Reception (Sakura-no-ma Room) |
